

# The LJMU Mentor Guide to the Curriculum in <a href="Phase 3">Phase 3</a> Secondary Drama 2024

## **Creating the Drama Teachers of Tomorrow**

The ITE Curriculum in Phase 3 further extends student teachers' critical engagement with research and practice, within the relevant subject(s) and age phase(s). Most of Phase 3 is school based, as the student teacher completes their final placement, extending their knowledge and skills to achieve a recommendation for Qualified Teacher Status (QTS).

### The Phase 3 curriculum (centre based) includes a focus on:

- Subject pedagogies and strategies across the Secondary age range.
- Curriculum design.
- Transition between key stages.
- Statutory assessment.
- Deepening Subject knowledge and curriculum knowledge.
- Adaptive practice.
- Preparing for the ECT year.

#### School based training:

During Phase 3, the ITE curriculum will be extended and contextualised within school placements.

Training will enable student teachers to successfully demonstrate a range of teaching approaches, appropriate to subject, age, and individual needs, and contribute to the development of curriculum thinking, drawing on evidence from research.

Whilst we expect the ITE curriculum to be increasingly personalised during Phase 3, in order to meet individual areas for development and school priorities, it is likely that student teachers' understanding and experience of working with other adults (including parents), and of assessment and adaptive teaching will need deepening during this final period, supported by expert colleagues.

During Phase 3 student teachers have more independent responsibility for planning and teaching lessons which are well matched to the needs of groups and individuals, and for planning units of work as part of an ambitious curriculum, with a positive impact on pupil progress.

#### **Expected outcomes**

Mid-point and end of Phase reviews are completed by ITT Mentors in schools. In Phase 3, these reviews assess progress against the Teachers' Standards. By the end of Phase 3 we expect student teachers to:

- Demonstrate evidence of achievement of ALL curriculum and placement requirements to date (the Teachers' Standards, including Part 2, to be addressed at the end of programme).
- Respond constructively to challenge, feedback and critique, and demonstrate
  a commitment to continuously improve their understanding and practice,
  reflected in their Career Entry and Development Profile.

#### In Drama sessions:

Drama is action, and through school partnership, our student teachers have been immensely active, doing, reflecting, researching, and improving. Their progression towards independence as teachers has been dependent on your good will, commitment, time and expertise as subject mentors, integrated in partnership with the generic professional core and Drama subject-specific programme here at LJMU.

In Drama Subject Studies, student teachers have been 'busy being born', developing their skills and subject knowledge through Key Stage 3, and now exploring Key Stages 4 and 5. With your guidance, they are learning the multiple roles of the Drama teacher: planning lessons; managing behaviour; inclusively adapting their teaching; beginning assessment; and always placing pupils at the heart of the learning they facilitate.

Progression in education is never simply linear, and in this next phase of teaching, we expect our new teachers – for that is what they are becoming – to build on all your have taught them: Lesson Planning will now become Lesson Sequencing; collaborative teaching will become increasingly self-sufficient; and, comfortable with their pedagogic persona, in returning to their home school, they will now 'know the place for the first time'. We do not expect the teachers we nurture to be 'getting better all the time', but we have faith, through your guidance, that they will begin to understand the progression they are making, growing towards QTS in skill, knowledge, and confidence, to find their own voice as Drama teachers, emerging from students to colleagues. For guiding such essential progression and development, we thank you.

## The Phase 3a ITE Drama Curriculum:

In Phase 3, the centre-based curriculum focuses on subject knowledge, pedagogy, adaptive practice, assessment and progress in the subject. We ask you to support students in exploring these further in schools.

**Lesson observation focus questions:** these questions can be used as foci or prompt for lesson observations and mentor/student teacher discourse. Not all elements are required in every lesson and may be phase dependent, i.e. expectations that more elements would be present in Phase Three of teaching as confidence and highly effective practice is embedded.

## Guidance for Observation and Target Setting in Secondary Drama

All pupils should be enabled to participate in and gain knowledge, skills and understanding associated with the artistic practice of Drama. Pupils should be able to adopt, create and sustain a range of roles, responding appropriately to others in role. They should have opportunities to improvise, devise and script Drama for one another and a range of audiences, as well as to rehearse, refine, share and respond thoughtfully to Drama and Theatre performances.

## **Key Questions To Ask When Observing Drama Lessons:**

Drama Subject-Specific Questions		Additional Information
1	What specific aspect of Drama knowledge does the lesson address?	Ask the student teacher to think about the level-appropriate Drama Curriculum they are teaching the class.
2	Are elements of Hornbrook's basic 'Making' / 'Performing' / Responding' used in the structure and timing of the lesson?	Ask the student teacher to explore the practical and theoretical elements of the lesson.
3	Is Drama specific terminology being introduced and practised?	Ask the student teacher to think about how they are advancing the technical subject-specific language of their pupils.
4	Are appropriate Drama Education techniques being used?	Ask the student teacher to interrogate any established techniques used, and why eg 'Teacher-in-Role'.
5	Are the learners introduced to a range of Drama practitioners?	Ask the student teacher if they have made use of key practitioners eg Stanislavski.
6	How is the Drama text used? Is there a range of new or canonical playwrights and play texts?	Ask the student teacher if they have made use of any particular playwrights; how; and why?
	Glossary: See student handout for Friday 17th March session on Terminology.	

## Potential Drama Subject-Specific Targets on Lesson Analysis Forms

As a non-National Curriculum subject the curriculum content for Drama will depend upon the requirements of the School, presumably guided backwards from the exam KS5 A-level / BTEC and KS4 GCSE specifications adopted, embracing both theory and practice at these levels.

Potential Drama Subject-Specific Targets			
1	<ul> <li>Lesson design and delivery, including sequencing and choice of teaching methods (CCF curriculum &amp; pedagogy) Next Steps:</li> <li>Use a greater range of Drama Teaching Strategies through the lesson.</li> <li>Plan a more appropriate balance of theory and practice in each lesson.</li> <li>Identify and make explicit the key substantive subject knowledge pupils are learning through the lesson.</li> <li>Plan more explicitly for pupils to develop their Drama specific vocabulary each lesson.</li> <li>Adjust the planned Sequence of Lessons accordingly – do you need to revise the order of lessons in the Sequence following the lesson?</li> </ul>		
2	<ul> <li>Pupil progress in this lesson and use of assessment (including questioning) (CCF assessment) Next Steps:</li> <li>Develop a wide range of strategies to check your pupils have learnt what you think you have taught.</li> <li>Vary your modes of assessment to track pupil progression eg Peer and Self-Assessment.</li> <li>Clarify and make more explicit the marking criteria.</li> <li>Expand your range of questioning techniques.</li> <li>Include all pupils in your questioning.</li> </ul>		
3	<ul> <li>Student teacher's developing Subject Knowledge and Pedagogy (CCF curriculum &amp; pedagogy) Next Steps:</li> <li>Develop the rationale for the use of technology in your teaching. Or are you utilising technology unnecessarily?</li> <li>Strengthen your subject knowledge for Key Stage 3 / 4 / 5 as appropriate.</li> <li>Strengthen your strategies for teaching performance texts.</li> <li>Develop deeper understanding of social, historical and cultural contexts, including the theatrical conventions of the period in which the performance texts were created.</li> <li>Build in more opportunities for the class to analyse and evaluate their own process of creating live theatre.</li> </ul>
